**Excerpt #1:**

*Risk Management*

At RCM&D, we create individualized risk management programs tailored to meet the needs of each of our clients. Our talented and experienced professionals work with you to identify areas of risk to your organization and help you determine the most effective methods to manage those risks.

But our job does not end with the placement of insurance.

Our multidisciplinary team approach ensures you consistently receive the knowledgeable, competent service you expect. Each client is serviced by an account team comprised of individuals with specific expertise in various areas of the risk management process.

**Excerpt #2:**

*Employee Benefits*

As one of the largest independent benefits brokerage firms in the country, RCM&D works with more than 250 companies in the strategic planning and analysis of their employee benefit plans. Our goal has always been to be more than an insurance broker for our clients. We provide our clients with benefit consulting services that allow their human resources staff to address the needs of today's employees while preparing for the challenges of tomorrow.

Although many brokers can quote a good price on basic employee benefits coverage, RCM&D brings an unmatched commitment to service and unparalleled industry expertise.

We have the industry clout and reputation to obtain the best possible program for our clients. We consistently demand and receive the highest level of service from our carriers and are assigned the most skilled customer service representatives. As most HR professionals know, it is often the expertise level of the carrier representative that determines the effectiveness of an insurance program.

*RCM&D is an independent insurance, risk management and employee benefits consulting firm. This brochure was used by the sales team to provide prospects and clients with an overview of the products and services the company offers.*
